

IT IS SETTLED NOW

The Street Railway Will Go Over 28th Street Bridge.

LAST OBSTACLE REMOVED

Prolonged Session of the Council. Sewer Problem Solved. The Mayor's Recommendations. Ordinances Proposed and New Petitions.

The city council last night transacted much business of importance and settled several knotty problems. As a result all difficulties in the way of the sewerage work have been removed and also the last stumbling block was removed from the progress of the contemplated street railway. The city council, after a long session, passed an ordinance providing for the sewerage work and also the last stumbling block was removed from the progress of the contemplated street railway.

When the council convened there were present, in addition to President Buxton and Clerk Massie, Councilmen Cory, Doherty, Hughes, McLaughlin, O'Donnell, Roane, Durrer, Powell, Ford, Caffrey and Washington.

Clerk Massie stated that the bridge bonds had been forwarded to Cincinnati and would be accepted as soon as a lithographical error could be corrected upon No. 6, in which the date was 1901 instead of 1902.

The ordinance committee reported recommending the passage of an ordinance to approve and adopt a map of the city of Newport News, and to provide for the sewerage work, and to provide for the street railway.

SMALLPOX RUMORS

Circulating Yesterday Without Foundation.

NEGRO SICK ON THE ACRES

Not Believed That His Symptoms Are Those of the Dread Disease. The Situation at Norfolk. Baltimore's Quarantine Against the Malady.

A report was in circulation yesterday to the effect that a case of smallpox existed on the Acres and that the white and negro residents of that section were greatly alarmed over its presence in their midst.

How the report was started is not known, but several doctors and a number of city officials, as well as people from the Acres, had heard the rumor and had been endeavoring to disprove it.

An investigation by the Daily Press failed to confirm the report, although it was learned that a negro is confined to his bed in a small shack on Sixteenth street with some kind of disease that puzzles his friends.

As far as can be ascertained, no white doctor has been in attendance on the man. It is said that a negro has appeared on his body and that is the only reason assigned for the circulation of the report that he was stricken with smallpox.

The present rate in Norfolk, it is probable that Newport News will have to take some additional precautionary measures. The situation in the city is not as serious as it is made out to be.

WILHELM IN HOLY LAND.

Imposing Ceremonies at Zion. The Emperor Makes a Speech.

Report That She Encountered a Cyclone Discredited.

MAY ARRIVE SUNDAY

Will Enter Norfolk Navy Yard for Survey.

Whether Repairs Will Be Made There Depends Upon the Board and Chief Constructor Hiebhorn.

WASHINGTON, Nov. 1.—The Navy Department is under no apprehension as to the safety of the Maria Teresa although some fear has been expressed in the Santiago dispatches that the vessel along with her consort, the Vulkan and Leonidas, have fallen into the hands of the Cuban rebels.

The Maria Teresa, a Spanish battleship, was captured by the Cuban rebels on the eastern extremity of Cuba early yesterday morning, bound for Hampton Roads and signalled that all was well and that her machinery was working smoothly.

By this time, according to the calculations of the naval officers, she should be well on toward the Bahamas, leaving the eastward and away from the Florida coast.

Meanwhile, the weather bureau report to the Navy Department shows that a cyclone is forming to the south-west of Havana, which probably will come up the southwest coast of Florida, and if this prediction is true, the warship will be well away from the pathway of the cyclone—at least 1,000 miles.

The latest calculation made at the department is that the Teresa will arrive in Hampton Roads next Sunday afternoon. Presumably that she has no fear of the probable storm which will come up the southwest coast of Florida.

Whether the repairs recommended by that board will be made at the same yard or not will depend largely upon the report of the board and upon the recommendations of Chief Constructor Hiebhorn, but the probabilities are that the work will be done in Norfolk.

ORGANIZATION EFFECTED.

Dupuy's Cabinet in Session. Vital Affairs of State Discussed.

PARIS, Nov. 1.—President Faure this evening signed the decree constituting the cabinet formed by M. Dupuy.

M. Dupuy had a long conference with his colleagues this afternoon and discussed all pending domestic and foreign questions. The ministers reached a complete accord regarding the past attitude of M. Deleassé, the foreign minister, toward the Fashoda question.

The cabinet will be organized tomorrow. The ministers reached a complete accord regarding the past attitude of M. Deleassé, the foreign minister, toward the Fashoda question.

A SUSPICIOUS CASE.

Austrian Steamship Lacerma Compelled to Coal in Quarantine.

There was a rumor going around yesterday to the effect that the ship was lying out in the channel with three cases of yellow fever aboard.

An investigation revealed the fact that the Austrian steamer Lacerma, from New Orleans for Trieste, Austria, with a general cargo, had put in here for coal, having aboard a case of sickness, which was considered sufficiently suspicious by National Quarantine Officer Pettus to warrant him in not giving the vessel a permit to discharge from quarantine.

He accordingly sent her on up to New Orleans with a limited pratique, permitting her to coal from lighters—under quarantine—but prohibiting her from touching at any of the wharves.

The suspicious case, however, is that of a steward, who was shipped at New Orleans just before the vessel left that port, which she cleared seven days before reaching Hampton Roads.

The vessel was taken sick when two days out, and it was in a precarious condition. Just what is the nature of the malady, Dr. A. C. Jones, quarantine officer of this port, who boarded the vessel when she came up, was unable to ascertain.

NO SPANISH BONDS

Other Than Municipal, Will Uncle Sam Honor.

BALANCE DUE, SMALL

At Paris Conference Falls, the United States Will Effect Military Possession of the Philippines. Spain Helpless to Resist by Land or Sea.

(By Telegraph.) WASHINGTON, Nov. 1.—The cabinet devoted most of its attention today to the consideration of questions connected with the administration of affairs in Cuba and Porto Rico.

The cabinet also received some information from the commission at Paris as to yesterday's proceedings and it is realized that nothing is to be expected in the way of developments until Friday afternoon.

While the cabinet gave little attention today to the peace negotiations at Paris, there is no longer any doubt as to the general purpose of this government to effect the final Philippine archipelago, and if that final balance of the account, viz., the cost of the war to the United States on one side and our acquisitions on the other, it is found that any compensation is due the Spaniards, it will be made in a lump sum.

No Spanish bonds of any kind, municipal or otherwise, than local or municipal bonds, will be paid or assumed by this government. What sum of money this government would consent to pay to Spain cannot even be estimated, but when the final account is rendered, it is believed that the balance due Spain will be small, probably not exceeding \$25,000,000 or \$30,000,000.

The belief still prevails among a majority of the cabinet that the United States should not pay for the balance due Spain, but when the final account is rendered, it is believed that the balance due Spain will be small, probably not exceeding \$25,000,000 or \$30,000,000.
